

PROGRAMME

Tuesday, 26 March

Sunday, 24 March 1985

- 16.30 Registration in Cripps Hall
- 18.30 Dinner in Cripps Hall

Monday, 25 March

- 8.30 Registration in Tl foyer for Non-Residents
- 9.30 Irish geological domains: Hosts for industrial minerals
A A Flegg
- 10.10 From farmland to Tarmac
A Bell and D Hopkins
- 10.50 Coffee
- 11.20 Hemerdon - an evaluation case history
P M King and J Christofferson
- 12.00 How a proposed new road has led to greater understanding of the
northern limit of the Leicestershire coalfield
A C Lingham
- 12.40 Lunch
- 14.00 Such quantities of sand
J E Prentice
- 14.40 Recent developments in the UK silica sand industry - and some
thoughts
G M Clarke
- 15.20 Tea
- 15.50 Problems in the evaluation of the Durness Limestone, NW Scotland
A C Charters and P W Scott
- 16.30 The BGS Limestone resources assessment reports - a user's
viewpoint
C S Patrick
- 17.10 Stability and hydrogeology of deep quarries: implications for
reserve evaluation and quarry planning
P Gordon and G Walton
- 17.50 Close of Session
- 18.30 Dinner

- 9.30 The BGS geological database as an information resource
W G Henderson and J L Laxton
- 10.10 Mineralogical support for the development of small scale mining
D A Briggs, A J Bloodworth and D J Morgan
- 10.50 Coffee
- 11.20 Applications of downhole gamma-logging to the extractive
industries
S Penn and D Harrison
- 12.00 The assessment of overburden and superficial deposits by
electrical conductivity methods
S Penn
- 12.40 Lunch
- 14.00 Evaluation of a bentonite from Bahia State, Brazil
M D Moreira, P W Scott, A G Fraser and R Middleton
- 14.40 The petrology and properties of fused basalt
A C Dunham and F C F Wilkinson
- 15.20 Tea
- 15.50 An Open Discussion on drilling introduced by R Braithwaite
- 16.30 Discussion and Conclusion
